

Statistics gathered by one of the top 3 CAD providers have found that **80% of manufacturing errors were down to incorrect use of GD&T**

GD&T Webinar 2015

Tuesday 10th February
Monday 23rd March
Tuesday 14th April
Friday 8th May
Wednesday 10th June
Thursday 16th July

Tuesday 18th August
Tuesday 15th September
Tuesday 6th October
Monday 9th November
Thursday 17th December

Attend the GD&T Webinar to **gain the competitive edge** and start down the path of:

- ▶ improving the quality of your designs
- ▶ reducing scrap and inefficiencies that arise from poor component specification
- ▶ saving on cost and increasing profit

Learn the essentials of GD&T and get an exclusive insight on tips and tricks from an industry **expert** in tolerance analysis to help you **achieve more**.

We have assisted designers through a standards-based application of GD&T; increasing GD&T standards conformity and accuracy whilst reducing the time to apply GD&T by 75%.

TIME/DURATION

1 hour webinar 3:00PM – 4:00PM (UK Time)

WHO SHOULD ATTEND?

- Those hampered by lots of manual calculations
- Those needing to reduce time in their design process
- Those wanting to ensure their products are produced to a high level of quality in component specification, whilst reducing cost

AGENDA

- Welcome and introduction
- Intro to GD&T – the importance of GD&T
- Getting it right – the benefits of GD&T
- Key GD&T Terminology/rules/concepts
- Top Tips
- Q&A
- End session
