

## Government to build up to 300k houses per year

From **AMP7**, network improvements will be funded by developers through the infrastructure charge, this is a flat rate, **regulated charge** levied on all new connections over the five-year AMP period

## Water Companies must understand the Impact

- The rate of **housing growth** for any given catchment is **unclear**
- Lack of strategic solution**
- Too many scenarios** to be modelled
- Modelling studies** can take **weeks**

HOW CAN YOU MEET THE CHALLENGE?

Minimal Input Required

### Water Company

Highlight  
Critical  
Catchments

Collate  
Requirements

### Smart Process

Auto-
