ENGINSOFT

EnginSoft is a premier consulting firm in the field of Simulation Based Engineering Science (SBES) with a global presence. It was founded in 1984, but its founder and initial employees had been working in SBES since the mid '70s. Throughout its long history it has been at the forefront of technological innovation and remains a catalyst for change in the way SBES and CAE technologies in general are applied to solve even the most complex industrial problems with a high degree of reliability.

Today, EnginSoft is comprised of groups of highly qualified engineers, with expertise in a variety of engineering simulation technologies including FEM Analysis and CFD, working in synergic companies across the globe. We are present in Italy, France, Germany, the UK, Sweden, Turkey and the U.S.A. and have a close partnership with synergetic companies located in Greece, Spain, Israel, Portugal, Brazil, Japan and the U.S.A.

EnginSoft works across a broad range of industries that include the automotive, aerospace, defense, energy, civil engineering, consumer goods and biomechanics industries to help them get the most out of existing engineering simulation technologies.

DATA SHEET

strategicGIANT

The strategicGIANT (Growth Impact AssessmeNT) Solution developed by EnginSoft UK to help water companies meet the challenges of urban development under the new regulatory requirements imposed by OFWAT.

strategicGIANT is for Water Companies that need to understand the impact of housing growth and develop strategic growth plans that ensure efficient investment profiles that confidently invest in time-sensitive catchment plans.
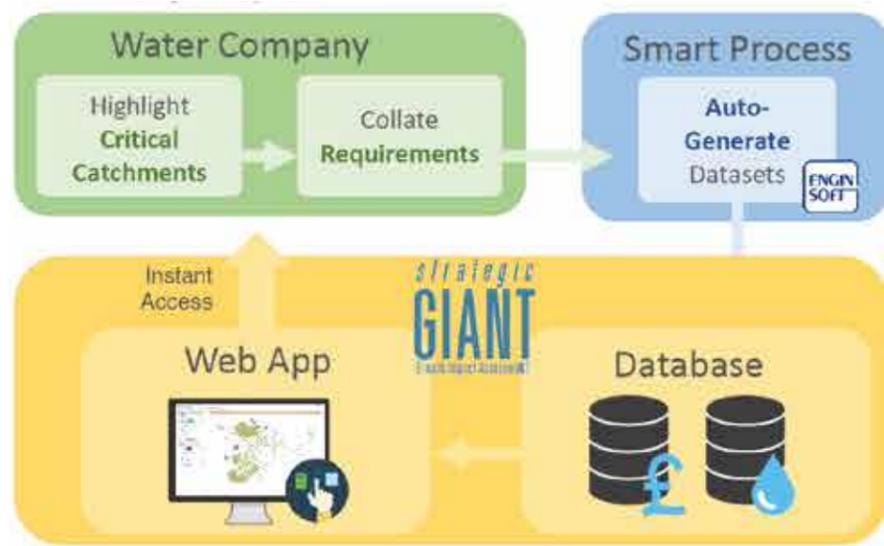

strategicGIANT is a product

ENGINSOFT

Growth Impact Assessment
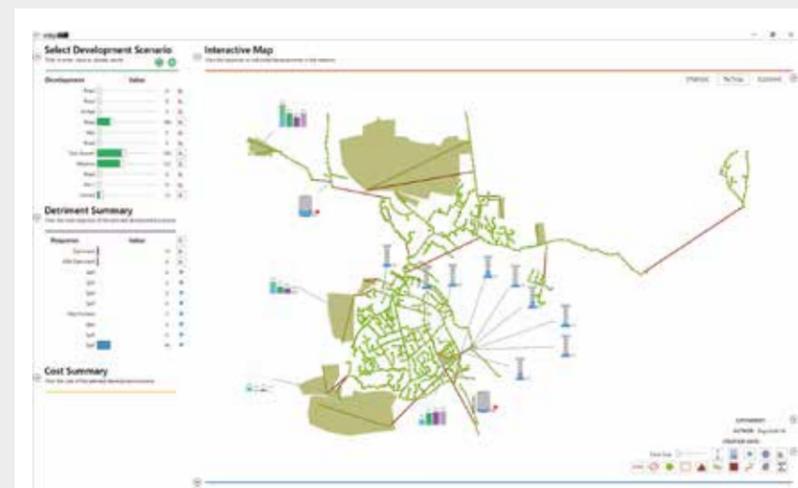

Benefits of *strategic*GIANT

- ✔ Develop **low-risk Strategic Growth Plans**
- ✔ Understand where **short-term solutions can be deployed**
- ✔ Create **efficient investment profile**
- ✔ Ensure all **stakeholders are satisfied whilst meeting service level requirements**

What you can achieve with *strategic*GIANT

- ✔ Instantly predict the detriment impact of any growth scenario
- ✔ Generate corresponding optimised network solutions
- ✔ Develop business level investment plans
- ✔ Compare different development strategies
- ✔ Understand if the network capacity is sufficient and where headroom is impacted
